Career Objective:

Motivated Computer Science student with strong skills in Java, Spring Boot, and MySQL. Seeking an internship or entry-level backend developer role to apply technical knowledge, build scalable applications, and gain industry experience.

Projects:

Volunteer Management System | **GitHub:** <https://github.com/Harshu3115/Volunteer-Event-Management-System>

- Developed a web-based Volunteer Management System using Java, Spring Boot, and MySQL
- Implemented volunteer registration, event management, and participation tracking
- Integrated email notification system using JavaMailSender for real-time updates
- Built secure backend with authentication and role-based access (admin & user)
- Designed layered backend architecture using Controller, Service, and Repository pattern.
- Developed RESTful APIs to handle user requests and improve system performance.

Student Management System | **GitHub:** <https://github.com/Harshu3115/student-management-system>

- Developed a full-stack web application using Java (Servlets, JDBC), MySQL, HTML, CSS
- Implemented CRUD operations with authentication system.
- Added search functionality by student ID and name.
- Improved data handling efficiency and user experience.

Bus Tracking System | **GitHub:** <https://github.com/Harshu3115/Bus-Tracking-System>

- Designed and developed a web-based system using Java, Servlets, MySQL, JavaScript
- Implemented session management and login authentication
- Enabled real-time CRUD operations for bus details
- Strengthened backend logic and database integration

Tic Tac Toe Game | **GitHub:** <https://github.com/Harshu3115/Tic-Tac-Toe-Game->

- Built a responsive browser game using **HTML, CSS, JavaScript**
- Implemented game logic and UI interactions
- Improved JavaScript DOM manipulation skills

Work Experience / Internship:

Full Stack Web Development Intern – Datex Technology Pvt. Ltd.

- Developed and maintained frontend and backend modules using HTML, CSS, Java, and MySQL

Advanced Java Intern – TechMaven

- Gained hands-on experience in Servlets, JDBC, and backend development

Infosys Springboard Internship (Completed)

- Completed training in Java and Spring Boot development.
- Gained hands-on experience in building backend applications
- Learned concepts of RESTful APIs and enterprise application architecture

Technical Skills:

Languages: Java, JavaScript

Web Technologies: HTML, CSS, Bootstrap

Backend: Servlets, JDBC, Basic Spring Boot

Database: MySQL

Familiar with: REST APIs, MVC Architecture

Concepts: OOP, DBMS, Data Structures (Basic)

Tools: Git, GitHub, VS Code, Eclipse

Certifications:

- Java Programming – Great Learning
- SQL Fundamentals – Great Learning
- Full Stack Web Development Internship – Yhills
- Advanced Java – Tech Maven
- Programming Using Java – Infosys Springboard
- Barclays LifeSkills Programme – GTT Foundation

Extracurricular Activities:

President – CSE Department, FTC

- Led student activities and organized technical events

Coordinator – Technofab (National Level Event)

- Managed coding competition “Code Mania”

Kabaddi Player

- Winner at Sub-District Level Tournament

Education:

B.Tech CSE (2022–2026)

Fabtech Technical Campus, Sangola

CGPA: 7.04
